## **Ex. 5 - Deliberative**

Tim,

A question to you re EPA support to OSM on the stream protection rule.

## **Ex. 5 - Deliberative**

Good afternoon Dan.

I am gathering some information and recommendations on experts. One person to have on your radar is Ken Fritz, EPA ORD. I just emailed him inquiring re his availability to get on the phone with you. I am also talking with Scott Miller, BLM, this afternoon – for purpose of assessing the status of his effort.

# **Ex. 5 - Deliberative**

May I call you later this afternoon? What time do you work to?

Susan

Sounds good, could I join in on that call with Scott Miller, or speak with you about this whole thing after that call?

Thank you for your rapid reply. FYI, I sent you a corrected email, there were a couple of garbled sentences in my first email below. My apologies for any confusion. There is a lot of "incoming" tasks coming my way the last few days, and I am not reviewing what I send out as carefully as I should.

FYI: I just heard back from Scott Miller (not Walker!), from BLM. We are set to talk next Monday on their planned work as well as other work he may be aware of.

Thanks Susan for the quick response to yesterday's phone call.

## **Ex. 5 - Deliberative**

Dennis Rice and will get back to you ASAP (hopefully on March 7th).

I will also get you an updated document which will include your suggestions, and ours.

I would like to get back to you next with time with recommendations on experts, some of whom you have already reached out (e.g. Chuck Hawkins, and others).

Your thoughts? I am trying to discern how best to assist you. The stream protection rule is a very important rule and we would like to help OSM in as effective a way as possible given your time frame.
